SOUTH32 TO RETURN AN ADDITIONAL US\$500M TO SHAREHOLDERS

South32 Limited (ASX, LSE, JSE: S32; ADR: SOUHY) (South32) today announced that it intends to return an additional US\$500M to shareholders, equating to 4.5% of the Group's current market capitalisation.¹ This capital management program, which complements the Group's dividend policy, will initially take the form of an on-market share buy-back in Australia.

South32 Chairman, David Crawford said: "The combination of our operating leverage, strong balance sheet and simple capital management framework is designed to maximise returns and reward shareholders as financial performance improves. Today's announcement further demonstrates our disciplined approach to capital management and our confidence in the Group's cash generating capacity."

South32 Chief Executive Officer, Graham Kerr said: "Our net cash balance continues to build giving us the financial strength and flexibility to invest in our existing operations, pursue opportunities where we can create value and return excess capital to shareholders. This US\$500M capital management program meaningfully increases shareholder returns and follows the recent announcement of our US\$192M interim dividend."

The timing and number of shares purchased under the on-market share buy-back will be contingent upon the prevailing share price and market conditions. The on-market share buy-back is not subject to shareholder approval and will be funded from existing cash reserves. Appendix 3C in respect of the on-market share buy-back is attached to this announcement.

The US\$500M capital management program is expected to be completed over a 12 month period and all alternatives will continue to be assessed to ensure this capital is returned in an efficient manner.

About South32
