23 EIS STUDY TEAM

This EIS has been prepared by Hansen Bailey in association with a series of technical specialists. Table 23-1 lists the EIS components and study team members involved in researching, writing and reviewing each section.

Table 23-2 provides the qualifications and experience of the team members.

Personnel representing the proponent (i.e., staff from South32 [previously BHP Billiton Manganese Australia] and GEMCO) were involved in providing project information, including mine plans, production rates, mine scheduling, proposed infrastructure and a description of the integration between the project and the existing mine. The proponent's environmental personnel provided information on environmental management practices and mine rehabilitation at the existing mine. All sections of the EIS were reviewed and approved by various personnel representing the proponent. Personnel involved in this process are listed in Table 23-3.

The proponent would like to gratefully acknowledge the assistance of the Traditional Owners of Groote Eylandt and the Anindilyakwa Land Council Land and Sea Rangers (ALC Rangers) who took part in the archaeology and ecology field surveys for the EIS.

The Traditional Owners who took part were:

- Leonard Amagula
- Innes Wurrumurra
- Ronald Wurrawilya
- Rodson Amagula
- Alviston Wurrawilya
- Torrence Wurrawilya

The ALC Rangers who took part were:

- Melville Amagula
- Marcelle Kenny
- Troy Schulze
- Chiquita Bara Bara
- Keith Lambert
- Jocelyn Yantaarnga
- Kirra Blitner
- Josiah Marawili
- Shelley Fitzsimmons
- Jayd Salzgeber

The participants provided invaluable knowledge regarding the archaeology, flora and fauna of Groote Eylandt, and were able to offer significant insight into the local traditions and Indigenous artwork.
