Dear Claire Reid,

**Ministerial Statement 1164 - Worsley Mine Expansion - Revised Proposal
- Water Management Plan - APPROVED**

Thank you for submitting the *Water Management (01027243, Rev 6.0, 17 Jan 2025)* (the Plan) for the Worsley Mine Expansion – Revised Proposal to the Department of Water and Environmental Regulation (DWER) for review.

I note the Plan has been prepared to satisfy Condition B16-2 of Ministerial Statement 1237 which states:

B16-2 The proponent must review and update the Water Management Plan (South32 Worsley Alumina Version 5.4), that satisfies the requirements of condition C4 and demonstrates how achievement of the outcomes in condition B16-1 and B12-1(2)(a) and B12-1(2)(b) will be monitored and substantiated and submit for approval to the CEO prior to implementation of the proposal.

I am satisfied that the revised Plan titled *Water Management (01027243, Rev 6.0, 10 Feb 2025)*, meets the requirements of condition B16-2 of Ministerial Statement 1237, and that the proponent must now implement the provisions of the Management Plan as required by condition B16-2.

Please note the requirements of condition D5-1 that the plan must now be made publicly available.

Yours sincerely
