

Boddington Family Support Group was one of our recent grant recipients.

Mine Community Liaison Committee – November 2015

Worsley operational update

- South32 Worsley Alumina restructured to two operations – Mines & Materials and Refinery
- Mines & Materials now accountable for bauxite, raw materials and transport (conveyor, rail, port)
- Alysia Tringrove appointed South32 Worsley Alumina Mines and Materials Vice President
- New Mines & Materials Mine Production Manager, Joe Russell, and family moved to Boddington
- New apprentice soon to be appointed and scheduled to start in January
- Our mining will be more visual and closer to town under our latest Two Year Mine Plan
 - Mining in some areas to be conducted during the day only to minimise community impacts
 - Rehabilitation in high visibility areas to be fast tracked
- Our refinery, near Collie, is usually self-sufficient for water but a record dry year means we will need to import supplies over summer

Worsley community update

- Worsley Community Forum and BBQ
 - Boddington RSL Hall
 - Wednesday 9 December 4pm-7pm
